

Coil-Over Springs

Adjustable Shock Jig

Specially made by Kugel Komponenten to fit AME shock studs, this handy device lets you set ride heights from 12-1/4" to 16-3/4" to establish the desired stance during fabrication and assembly. This mock-up tool is a "must" for serious builders.

18188025 Adjustable Shock Jig (Pair).....\$70.00

AME Front, Rear and Coil-Over Springs

Spring rates are a key factor in any vehicle's ride quality and also influence the stance. Accordingly, Art Morrison Enterprises carries a wide variety of precision wound 2-1/2" and 3" diameter springs for both front and rear suspension applications, including for coil-over shock absorbers. AME's Sales/Tech staff has extensive experience working with a wide variety of suspension/vehicle applications and can provide you with spring size/rate recommendations.

Coil-Overs

Fixed Rate 2-1/2" I.D.x12" Rear Springs (Pair) ...\$140.00
 Fixed Rate 2-1/2" I.D.x10" Rear Springs (Pair)...\$140.00
 Fixed Rate 3" I.D.x14" Rear Springs (Pair).....\$110.00

Front

 16184000 200# Fixed Rate 3" I.D.x14" Springs ...140.00

Shock Jigs Kits

These handy new devices from Art Morrison make it easy to install a rear end housing in the correct position for your desired ride height. The Jigs can be set for the *compressed height* of the coil-over, and shock mounts positioned accordingly. Models are available to simulate both spherical bearing end and standard shaft-type shocks. The shock jigs are shown with Morrison coil spring mounts for illustrative purposes. **\$30.00**

Coil Spring & Shock Absorber Bearings

To facilitate easily adjusting the ride height on coil-over shocks install these handy bearings under the spring. Also available are special polyurethane bearings that allow the adjuster to turn freely by eliminating spring friction.

18166400 Spring Bearing Kit Poly (Pr).....\$20.00
 18166100 Shock Bearing Kit (brngs & snap rings).. 40.00
 18166200 Snap Rings (8).....5.50

Wheel Spacers

Installing wider tires and wheels can often lead to clearance problems. Solve them with our aluminum spacers (5-on 4-1/2", 4-3/4" & 5").

54020500 1/8" W 7/16" Holes, Each.....\$18.00
 54020510 1/8" W 1/2" Holes, Each.....18.00
 54020520 1/4" W 7/16" Holes, Each.....22.00
 54020530 1/4" W 1/2" Holes, Each.....22.00
 54020540 1/2" W 7/16" Holes, Each.....30.00
 54020550 1/2" W 1/2" Holes, Each.....30.00

Replacement Shocks for AME Rear Spring Kits and Coil-Overs

These are replacement shock absorbers for Monroe-based Morrison coil spring kits. The Monroe shocks are of the heavy-duty Monroe variety sporting Monroe non-adjustable. A companion to Morrison coil-over springs shown at the top of this page. Sold individually. **\$40.00**
