

10-Point Roll Cage Kit
As Shown **\$399**

10-Point Roll Cage Kit

The ultimate in stiffness, strength, triangulation, safety, and performance. Each kit is made from 1-5/8"x.134" steel tubing or 4130 chrome moly in the lightest configuration possible without sacrificing the system's strength or protection. Added front and rear struts provide the rigidity needed to realize the benefits of fine chassis tuning, a definite plus for the serious-minded racer. Cages include dash bar and driver's side rocker bar. Cages

ordered by make, model and year of vehicle. Designed for the do-it-yourself home builder. Get installation details in our "Fast Track" video.

Please note that while Morrison lists this as a 10-point cage, to reflect the true number of chassis contact points, other manufacturers call this a "12-point" cage, adding in the side bars (which are included in the Morrison kit) to their count. Compare "apples to apples."

20209000 Mild Steel Roll Cage Kit.....\$399.00
20209500 4130 Chrome Moly Roll Cage Kit 735.00

Roll Bar Padding

Get required protection with high density padding. We have "offset" style round padding in 3' lengths.

20306901 Black Roll Bar Padding, 3' Length . . . \$10.00

4-Point Roll Bar Kit \$180

4-Point Roll Bar Kit

The Morrison 4-point roll bar is made from 1-3/4"x.134" steel tubing and is designed for weld-in installation. Can be bent to retain stock rear seat, if specified. Please specify make/model/year, and rear seat use when ordering. This particular configuration is not NHRA "legal" (8-point bar required).
